Technical Skills

- Core Java
- Selenium WebDriver
- Manual Testing
- SQL
- FrameWork
- GIT
- Agile Methodologies.

About Me

"Aspiring Software Test Engineer seeking an entry-level role to leverage knowledge of test automation, scripting, and bug tracking to ensure seamless functionality and high performance in software products."

Skill Summary

- **Manual Testing:** Strong understanding of software testing life cycle (STLC), test case creation, execution, and defect tracking.
- **Automation Testing:** Basic knowledge of automation tools such as Selenium, with the ability to write and execute simple test scripts.
- **Bug Tracking & Reporting:** Familiar with bug tracking tools like JIRA .
- **Test Planning & Documentation:** Ability to assist in preparing test plans, designing test cases, and creating detailed test reports.
- **Software Development Life Cycle (SDLC):** Good understanding of SDLC methodologies, including Agile and Waterfall models.
- **Database Testing:** Basic understanding of SQL for validating data integrity and performing backend testing.
- **Analytical & Problem-Solving Skills:** Strong attention to detail with a focus on identifying, isolating, and documenting software bugs.
- **Quick Learner:** Enthusiastic about learning new tools, technologies, and processes related to software testing

Certification

- I Have Completed Certified Course in Software Testing. In Both Manual & Automation Testing Course

Declaration

- I hereby sincerely attest that all of the information on this resume is accurate and true to the best of my knowledge.
